

ELECTRICAL SAFETY

COURSE: ELECTRICAL AWARENESS FOR EMERGENCY RESPONDERS

DESCRIPTION: This course presents an overview of electrical hazard awareness and response procedures for unqualified electrical workers that are responsible for emergency response to electrical injuries.

Supplemented by graphic videos and stimulating class discussions, this course has the impact required to ensure the employee is aware of the potential hazards he/she may encounter during rescue efforts and the actions and coordination that may be necessary.

DURATION: 4 HOURS

FORMAT: Power Point Presentation
Instructor Demonstrations

AUDIENCE: Medical staff, first response team members, and other personnel responsible for providing first aid to electric shock/burn victims

OBJECTIVE: This course will provide the student with the necessary knowledge to safely provide medical assistance to electric shock/burn victims while avoiding additional injuries during the rescue efforts

TOPICS: Applicable NFPA 70E requirements
Burns, Shock, and Hazards of electricity
Safe work clearances for applicable voltages
First aid treatment of electrical shock and burns
