

# ELECTRICAL SAFETY

---

**COURSE:** NFPA 70E ELECTRICAL SAFETY - WEBEX

**DESCRIPTION:** This online course presents electrical safety information based on the NFPA 70E “*Standard for Electrical Safety in the Workplace*” 2004 Edition. These rules establish the work practices to be used during the operation and maintenance of electrical systems.

The NFPA 70E requires all employees involved in the operation or maintenance of electrical systems, or who have access to these systems are required to be trained in the safety related work practices.

Supplemented by graphic videos and stimulating class discussions this course has the impact required to ensure the employee actually uses the procedures taught.

**DURATION:** 6 Hours

**FORMAT:** Webex Online Broadcast  
Power Point Presentation

**AUDIENCE:** Electrical Trades, Supervisors, Engineers, Managers and any other personnel involved in the operation of industrial electrical equipment. Safety personnel should also attend to evaluate/establish their facility safety programs and identify the needs of their employees.

**OBJECTIVE:** This training program will provide the student with the information required to comply with the NFPA 70E requirements in electrical safety, as well as to follow practices found to be valid through years of field experience.

**TOPICS:** Applicable NFPA 70E requirements  
Burns, Shock, and Hazards of electricity  
Personal Protective Equipment care and use  
Establishing an Electrically Safe Working Condition  
Hazardous energy control, Lockout and Tagout  
Proper use of safety and test equipment  
Grounding for employee protection  
Conducting Flash Hazard analysis  
Selection and use of protective clothing for arc flash protection  
Shock hazard analysis  
Energized Electrical Work Permit  
Safe work clearances

46575 Magellan Drive, Novi, MI 48377
